

COMPANY PROFILE

Introduction

KES Engineering (Pvt) Ltd is a nationally graded C2 contractor in the field of Water Supply & Drainage and Highways while encompassing a C3 status for Building Constructions by the Institute of Construction Training and Development (ICTAD). We are also a member of major and specialized contractors of the National Construction Contractors Association of Sri Lanka (NCCASL) (Membership No.R-5969)

DLF or DELIFE Interior (Pvt) Ltd is the in-house design, build, estimation and r & d company which also specialize in design & manufacture of commercial & residential interiors. Starting from a humble beginning DLF Interior, have today expanded from a mere design company to a holistic professional setup in Civil, Structural, M & E, Architectural Designing and as a multi discipline service provider with diversified operations. Versatile and creative architectural designs, effective professionalism, youthful ideas, high quality finishes, timely construction and cost effectiveness are special attributes one could expect from DLF in synergy with KES.

Our Strength

We have completed over 2150 million worth of work in the Eastern Province, just after the tsunami and also managed well during complex situations in the Conflict Affected Areas.

In re-building of tsunami affected areas we had over 1200 construction workers with a fully qualified and professional engineering staff in the Ampara District who were capable of handling over 10 projects at a time in the various fields such as Medical Center, Schools, Bridges, Sewerage Treatment Plants and Highways. KES owns a large fleet of vehicles and machinery to undertake any infrastructure project with ease.

KES encompasses the ability and strength to undertake any project of wide magnitude and complete any venture in a given time frame through its highly skilled work teams located around the country and its wide variety of plant and equipment capable of providing to the toughest of working conditions and is awarded with the M1 status in all the major construction sectors and certified Construction Company in ISO 9001: 2008.

SAFETY POLICY STATEMENT

As a reputed and responsible major construction company in the country, it is our responsibility to create and maintain a work friendly environment to enhance efficiency and effectiveness through risk and accident free work. Abiding by the company's motto, "Synergy in Construction", it is our vision to synergize all our construction works and processes with utmost safety regulations to protect and safe guard both the good health and positive mentality of our work teams, subcontractors, service personnel and all other stakeholders related to our constructions.

We make sure we achieve the above objective successfully by;

- Treating the safety of our team and all other stake holders with utmost priority at all times.
- Careful prior planning and proper prior implementation of world renowned safety regulations at site.
- Constantly searching for cons and flaws in the current safety strategy in order to improve our safety regulations with every opportunity we get.
- Providing each personnel with the required equipment needed in order to ensure safety at work.
- Providing proper technical training and extensive awareness of safety strategies in the company to all the stake holders at site.
- Ensuring that safety regulations are full filled and followed by all employees of the company regardless of the job position.

At our organization we believe in "SAFETY FIRST" and will definitely take all measures to ensure safety at our work places and create an accident free site throughout the processes.

QUALITY POLICY

We, at KES Engineering (Pvt) Ltd in synergy with DELIFE Interior (Pvt) Ltd are a team committed to provide quality products and services at affordable prices and on time execution of construction projects and manufacture related products, with the support of our valuable suppliers in harmony with the society and the environment .

We are further committed, to satisfy our customers whilst improving the quality of life of our people and thereby improving the viability of our organization.

We value team work, efficiency, responsibility and responsiveness to achieve these goals through optimization of resources and continual improvements of our systems at all levels of operations to further enhance the quality of our products and services.

This policy has been duly communicated to all employees of the Organization as per the requirements of the ISO 9001:2008 standards
